Steinheil Optical Works, Munich, Germany, was founded 140 years ago by the most brilliant optical scientist of his time, C. A. Steinheil. Since its inception, scientific progress and service to the field of photography was its chief goal. Today, Steinheil ranks as the foremost producer of instant-reopen automatic diaphragm lenses for 35 mm cameras.

Steinheil lenses are highly corrected to produce the finest results with color and black and white film. Each Steinheil lens was developed to meet a definite need. Perfection, precision and attention to the minutest detail is constantly maintained at every step of the manufacturing process. All these controls have but one object... to create lenses that will guarantee years of picture-taking perfection for you.

Your dealer will be glad to demonstrate the complete line of Steinheil lenses to you. Be sure to see him today!
