

Advance Notice!

THE NEW CHROMIUM-FACED

KINE-EXAKTA

for 36 exposures 24 x 36 mm. on 35 mm. normal ciné film will be available in a few days, and is a master-achievement of Ihagee Kamerawerk.

These are the staccato features:

Small.—Light metal body.—Absolutely lightproof.

Self-erecting focusing hood.—Eye level frame finder.—Hooded ground glass finder.—Magnifier unit increases finder image to vest pocket, 1½ x 2¼ size.—Additional hinged magnifier increases image sections to 2¼ x 3¼" appearance.

Film rewind.—Built-in cutter to separate any length of exposed film band section for sectional removal.

Coupling of shutter and film transport prevents involuntary double exposure, permitting deliberate double exposure.—Counter to 36 exposures.

Self-capping curtain shutter with speeds 1/1000 to 12 seconds, delayed action 1/1000 to 6 seconds.

Interchangeable lenses in rapid *Bayonet* lock mount.—Precision helical focusing to 3 feet and, by extension tubes, down to a few inches.—Automatic release lock until hood is erected.

Practical film guidance.—Tripod socket.—Leather neck cord.—Coupling contacts for flash-bulb synchronizer.—Cable release.
