

EXAKTA

SET THE WHEELS IN MOTION...

Over 25 years ago Exakta made the first big turn in cameras with the introduction of the 35mm Single Lens Reflex Camera.

Today Exakta is way out in front...ahead of all other cameras which imitated the Exakta principle.

No other camera can match Exakta's experience, precision, workmanship or prestige. That's why an Exakta is your guarantee of incomparable performance.

NEW 5" to INFINITY UNIQUE 6-ELEMENT MEYER DOMIRON FULLY AUTOMATIC LENS

For the first time in the history of lenses for SLR cameras... the famous Meyer Optical Factory in Germany with over 67 years experience, has produced an entirely new, unique, superb quality standard lens with fully automatic diaphragm, with a focal length of 50mm and F2.0 speed which enables the photographer to focus from infinity down to 5 inches with the same lens! Now usual pictures and close-ups too can always be taken with the same lens.

\$80.00 list

NEW EXAKTA MANUAL

by Werner Wurst

The greatest, largest, most complete book on the Exakta!
